Stakeholders Contact List.pdf

Here's a Stakeholder's contact list for your back pocket.

The full list will be out in tomorrow's IAP with EPA & START, too.

Thanks for your input.

Besides comment below I made yesterday, it should also say, Water and Sediment Sampling at the top of the page directly underneath 4. Division/Group Staging:

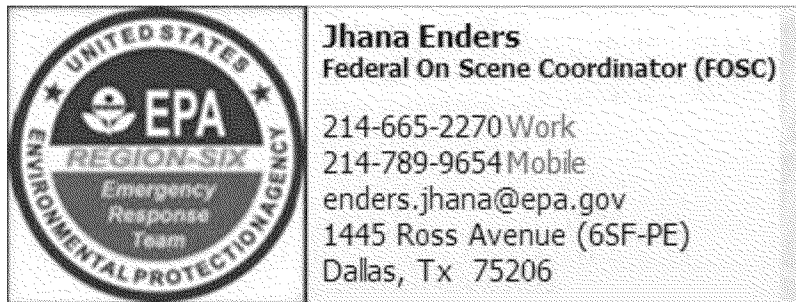

Also, would be nice to have local/state contacts as well as EPA/START we already talked about John...

Thanks.

---

Collect surface water samples, sediment samples, water quality readings, and video/photographic documentation from identified locations along the Animas and San Juan river near Aztec and Farmington New Mexico.

Thanks.
